A LITTLE BACKGROUND:.

I'm a moving picture creator (moving picture creator is not a real thing... I made it up to sound hip; I failed) living in Southern California. I'd like to point out that I'm a Northern Ca fellow at heart. This is important as it explains my beard, and my fondness of nature. I've worked in and around the world of digital media, especially the type that moves for almost a decade. I create moving images. Sometimes those images start with a camera, sometimes a computer, always with a story.

WORK TIMELINE:.

Jan 2014 - Current
Eastlake Church - Chula Vista, Ca.
Video Content Director/Online Pastor

I produce or oversee production on all in-house video/film projects from pre-production to final delivery. The majority of what we create are short docs. I also work with our volunteer team of around 75 people, training, encouraging, and adding sarcasm whenever I can. I am also the online campus pastor. I host, oversee, and lead everything online church related.

2009 - 2013
Bayside Church - Granite Bay, Ca.
Video Director

As the video director at bayside I oversaw a staff of 8, and a volunteer team of over 100. I oversaw all in house video content creation, worked with the weekend production team to produce weekend services, and worked with Lincoln Brewster (worship director) on work extending outside the church. I also worked with the Thrive Conference team producing visual elements and video content for conferences and events throughout the year.

2008 - Current
Freelancer
Editor/Motion Design/DP

I've worked with various churches and organizations on a variety of projects over the years. Some of the highlights are listed to the left. Others not listed are: K2 the church in Salt Lake City, UT (consulted on building volunteer teams + created video content). Grace Community in Lutz, FL. (Motion Design). Emmanuel Christian Center, Lake Park, MN. (DVD worship project), McKinney Church, Fort Worth, TX. (Motion Design).

2007 - 2009
EMF Broadcasting (KLOVE & AIR1 Radio Networks) - Rocklin, Ca.
Video Producer

EMF is a media organization, but 98% of their "media" is radio... While I was at EMF, they were in the early stages of building up their video/film department. Their goal was to begin growing in other areas of media, film was one of them. My role was to produce content to be used during fundraisers, general station PR pieces, and artist packages. I was also responsible for building up gear inventory, creating studio spaces, and discovering new ways to use film as another media outlet.
